FALL PROTECTION
PRODUCTS GUIDE

We know fall protection. For over 20 years, Safety Works has been an industry leader with exclusive focus on personal safety.

We are uniquely positioned, to help you select the best safety products, to meet your needs.

FALL PROTECTION DESERVES YOUR ATTENTION

Safety Works® simplifies selection, by offering a streamlined and proven line of fall protection products for tradespeople, roofers and even advanced DIYers. Safety Works follows ISEA's (International Safety Equipment Association) A - B - C based approach.

FALL PROTECTION SAFETY IS SERIOUS.

All jobs where workers are subjected to fall hazards, require a comprehensive fall protection program. Safety Works provides you with the right products, that can help prevent injuries and fatalities.

DID YOU KNOW

› Falls to a lower level are the second leading unintentional fatal workplace event, and the fifth leading event resulting in cases with days away from work.

› Fall Protection has topped OSHA's annual 'Top 10' list of most frequently cited violations, for 8 straight years (2011-2018).

National Safety Council Report

› Falls to a lower level are the third leading cause of disabling occupational injuries, costing businesses \$5.5 billion a year.

Liberty Mutual Workplace Safety Index

3 VITAL COMPONENTS OF A PERSONAL FALL PROTECTION SYSTEM

A

ANCHOR

Anchor - is the secure point of attachment for the fall arrest system. Anchorage connectors vary by industry, job, type of installation and structure. They must be able to withstand fall arrest forces. Anchorages and anchorage connectors must be independent and capable of supporting 5,000 lbs. per employee attached.

B

BODY SUPPORT

Body Support - harnesses provide the necessary body support, with straps that fasten around the user and distribute fall arrest forces over the upper thighs, pelvis, chest and shoulders.

C

CONNECTOR

Connectors - such as a shock-absorbing lanyard or self-retracting lifelines, connect the worker's harness to the anchorage.

Each component must be in place & properly used to provide maximum worker protection.

A

C

B

A

ANCHOR

A personal fall protection system is only as strong as its components. Selecting an appropriate Safety Works anchor point, is an essential part of a fall protection system.

REUSABLE ROOF ANCHOR
10102686

- > All steel construction for strength and durability
- > Versatile design can be used at roof peak or off peak in flat position
- > Use with screws or nails

TEMPORARY ROOF ANCHOR
10096540

- > All steel construction for strength and stability
- > Versatile design fits all pitches of roof trusses or rafters
- > Easy to install

B

BODY SUPPORT

Making sure that workers are comfortable and safe is a top priority at Safety Works. With Safety Works lightweight harnesses, safety is made simple.

ADJUSTABLE FULL BODY HARNESS WITH ONE BACK D-RING
10096486 Standard
10096580 X-Large

- > Lightweight, durable vest-style harness
- > Comfortable, 400 pound capacity with an integral load indicator
- > Breaking strength greater than 5000 lbs.
- > Leg straps facilitate fast and easy adjustment

ADJUSTABLE FULL BODY HARNESS WITH THREE D-RINGS
10096481 Standard
10096491 X-Large

- > Lightweight, durable vest-style harness
- > Comfortable, 400 pound capacity with an integral load indicator
- > Breaking strength greater than 5000 lbs.
- > Leg strap grommets, with tongue belt adjustment
- > One back D-ring for fall arrest, two waist level D-rings for positioning

AERIAL LIFT KIT
10096535 Standard
10095849 X-Large

- > Vest style harness with leg straps – allowing for fast and easy adjustment
- > Shock absorbing lanyard
- > Single leg straps
- > Carrying case for storage and portability
- > Standard size adjusts to fit most sizes
- > X-Large size adjusts to large and x-large

C CONNECTOR

With Safety Works connectors, impact is minimized by absorbing forces associated with a fall. With Safety Works, workers can be confident their equipment will hold up if the unexpected happens.

SHOCK ABSORBING LANYARD

10096585 Single Leg

10096590 Twin Leg

- > The shock absorber includes a clear, durable protective cover over the labels to increase service life and allow for easy inspection
- > Lightweight, with a low-profile body
- > Tear-tape design helps keep fall arrest force below 600 lbs.

TRAILING ROPE GRAB

10096595

- > Hands free ascent/descent, with ultra smooth travel action
- > Cam and hinge design allows for a quick, easy installation on the rope

MANUAL ROPE GRAB

10096511

- > Helps to provide temporary fall protection on ladders and when climbing vertical structures
- > Helps reduce fall distances
- > Easy to operate

50 FOOT VERTICAL LIFELINE

10096605

- > 50 ft. 5/8" rope, with load capacity snaphook
- > High strength polysteel twisted rope
- > Blue color for easy visibility

CARABINER

10096550

- > 1" gate with 3,600-lb gate strength
- > Auto-locking design provides extra protection
- > All steel construction for strength and stability

FALL PROTECTION KITS

Safety Works fall protection buckets offer a cost effective solution for keeping workers safe. They contain the essential A, B, C components for a personal fall protection system.

Meets ANSI A10.32 and OSHA regulations

KIT INCLUDES:

- A Temporary roof anchor
- B Adjustable full body safety harness, with three D-rings
- C 25 ft. Vertical lifeline with load capacity snaphook
- C Manual rope grab with single-leg lanyard
- C 3.5-gallon bucket with lid

ANSI APPROVED 6-PIECE FALL PROTECTION KIT

10095901

- > Complete ANSI-approved protection kit
- > Easy portability with included 3.5 gallon bucket with lid
- > Comfortable, 400 lb. capacity with an integral load indicator

Certified to CSA Z259.10-06 and meets ANSI A10.32 and OSHA regulations

KIT INCLUDES:

- A Temporary roof anchor
- B Adjustable full body safety harness, with one D-ring
- C 25 ft. Vertical lifeline, with load capacity snaphook
- C Trailing rope grab, with single-leg lanyard
- C 3.5-gallon bucket with lid

CSA APPROVED 6-PIECE FALL PROTECTION KIT

10095850

- > Complete CSA-approved protection kit
- > Easy portability with included 3.5 gallon bucket with lid
- > Comfortable, 400 lb. capacity with an integral load indicator

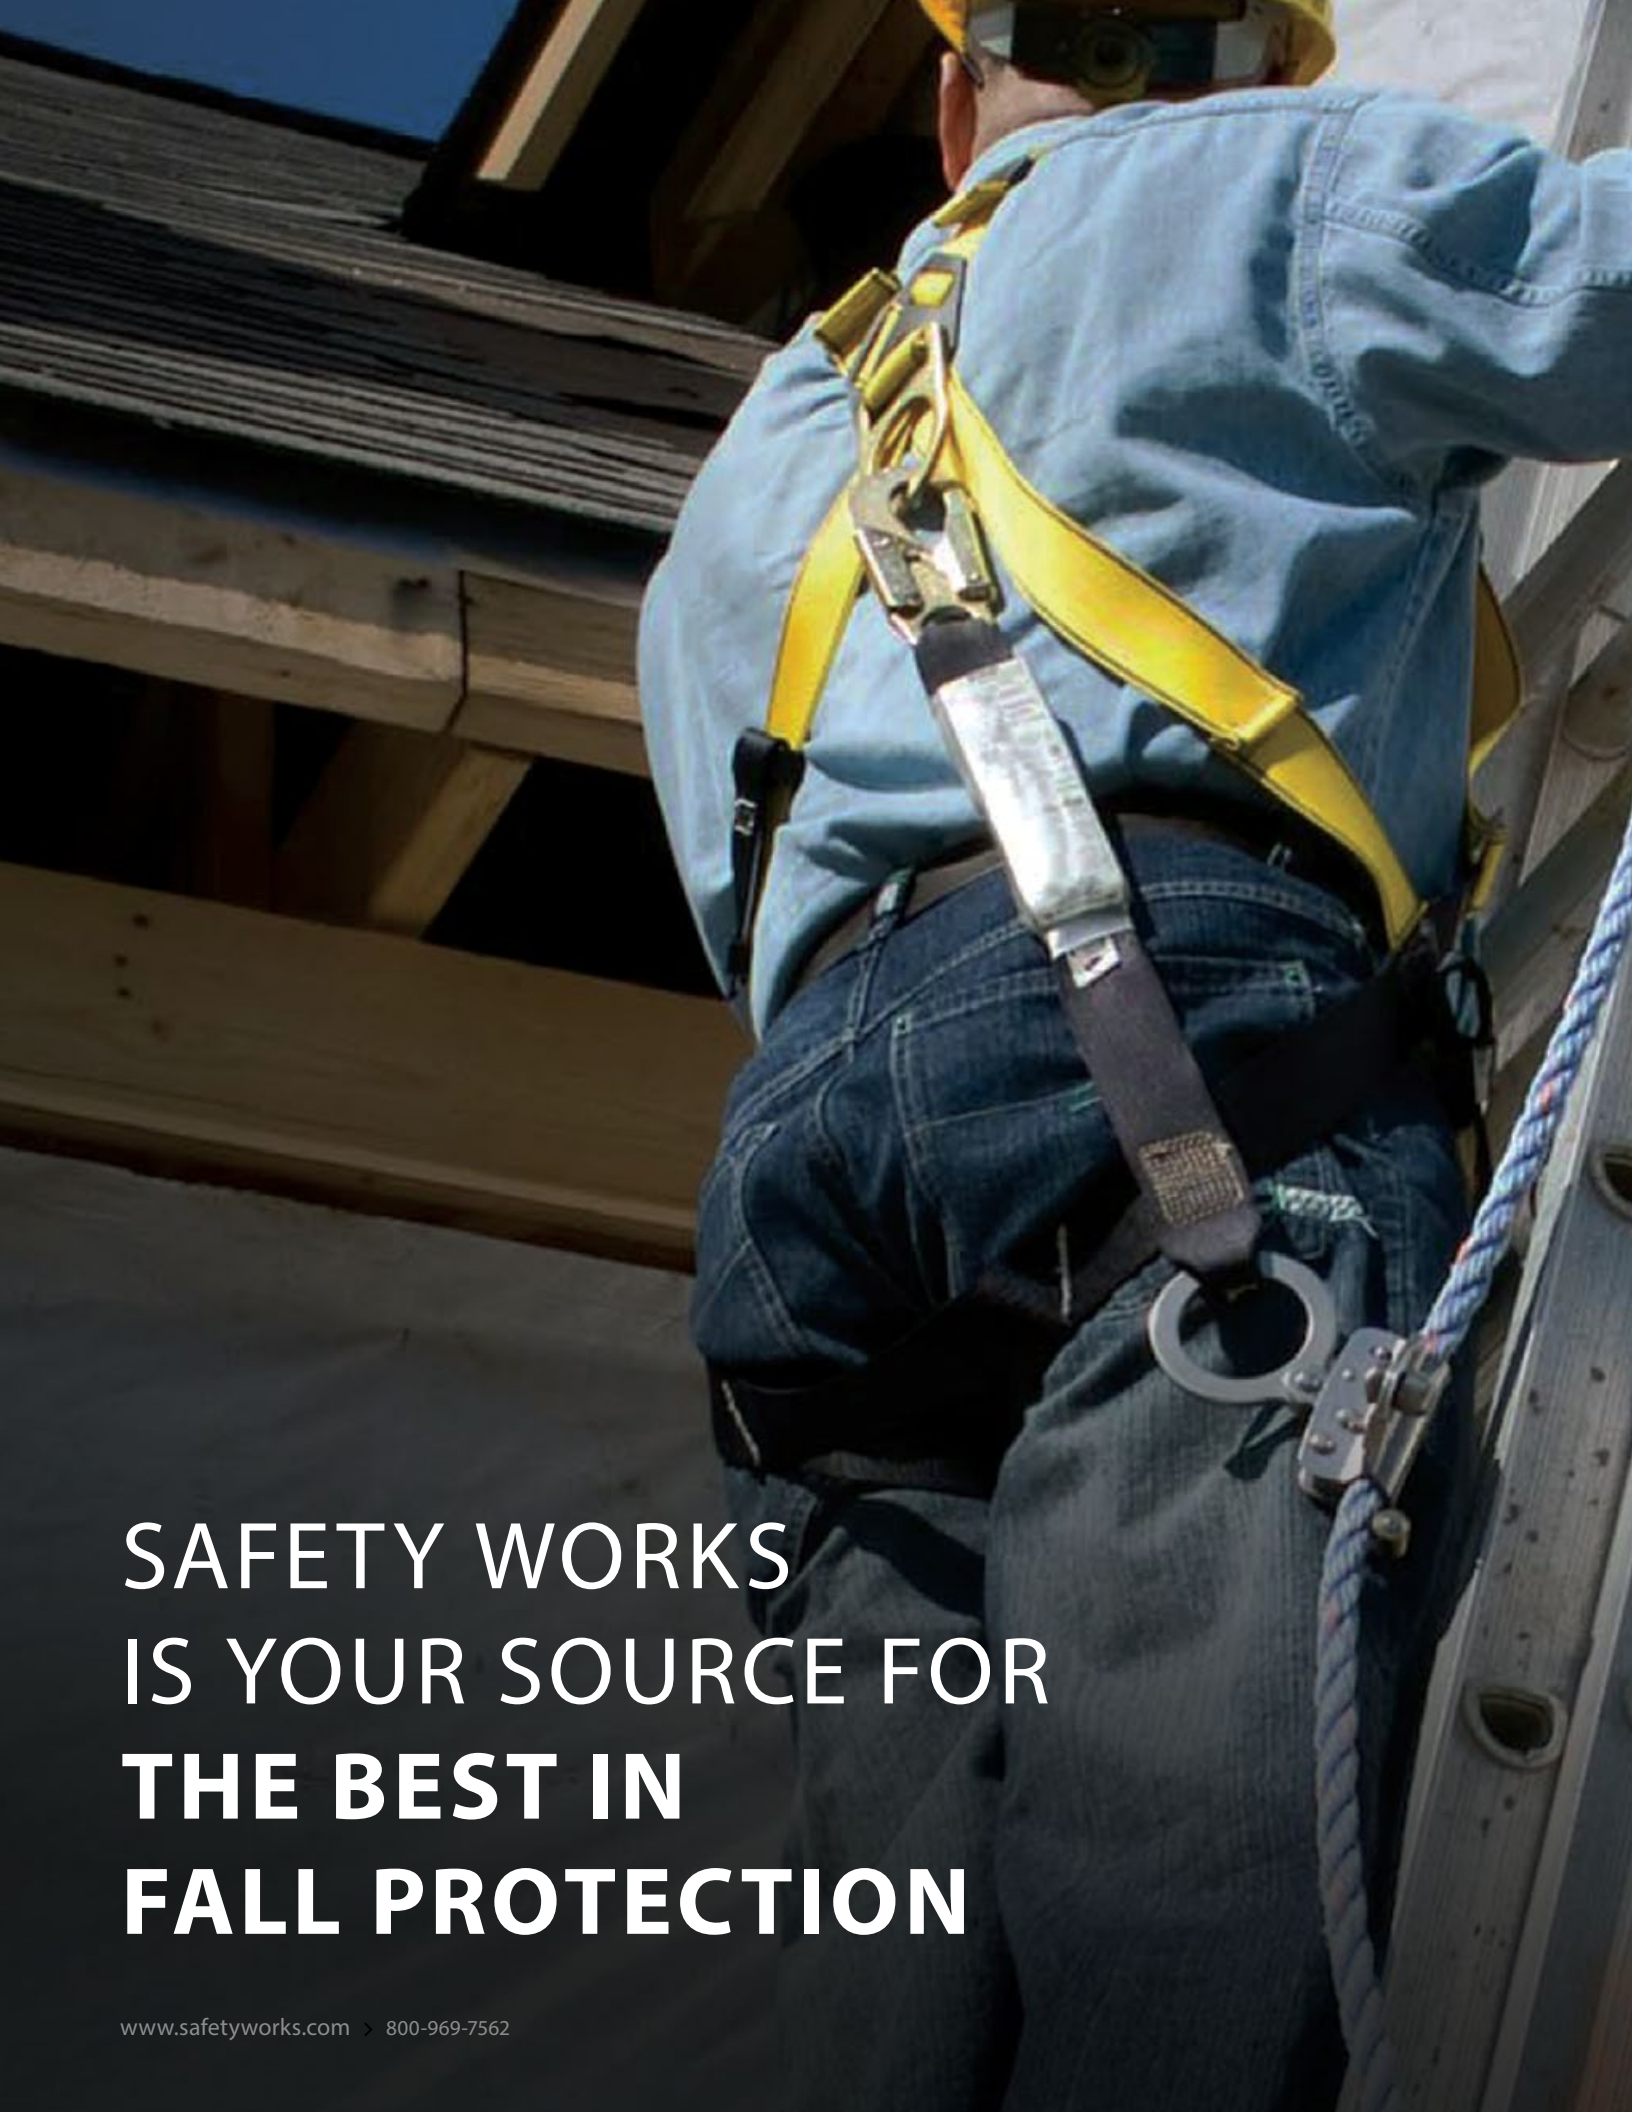

FALL PROTECTION ASSORTMENT

SWX00520

With this 2' assortment, all essential A, B, C fall protection components are covered, ensuring that your customers have their safety needs met.
